

EVoline[®] Port

Pop-Up Power Points

- Pops up from desk or kitchen benchtop
- 3 power outlets
- Option to add 2 ethernet sockets
- No ugly/dangerous trailing cords
- Convenient, safe, elegant

The Revolutionary Power Tower

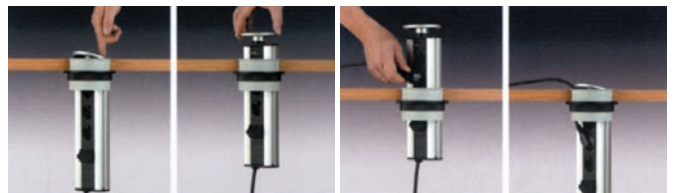

The **EVOLine® Port** gives you power to a table top or kitchen benchtop without ugly or dangerous trailing power cords or leads.

Use the **EVOLine® Port** in kitchens, conference rooms, offices, hotels – wherever safety, design and order are important.

- Pops up out of the benchtop or table top
- Subtle and neat when not in use
- Can be used for power and data
- RCD option available
- Safe for use in kitchen islands with sinks
(check with your electrician on minimum distances)
- Honoured with "Red Dot Design Award" for design and function
- German-made for NZ conditions
- Internationally patented
- Can be used, inverted, underneath wall units and cupboards

The EVOLine® Port in the kitchen (top) and in the office (bottom), with internet. Pops up easily then fully retracts into benchtop/desk after use.

Press rocking cover, pull EVOLine® Port out of the opening and connect the cords. Cords can remain connected in 'up' or 'retracted' positions.
